

What other people are saying about Intraceuticals

Dr. Drew Ordon
Plastic Surgeon and
Reconstructive Surgery Expert
USA

"I just finished an Intraceuticals Oxygen Facial on Valerie Bertinelli. What a sweet woman she is, so positive and enthusiastic – a real "glass-is-half-full" kind of person.

I have my share of celebrity clients, and Valerie's treatment is fairly typical. These on-camera stars need fast results, no down time and a predictable improvement. The oxygen facial is one of the quick turn-around procedures they love. We often combine this therapy with facial acid washes and Thermage treatment. The results are most profound on skin that has been neglected, but anyone can benefit. We try to offer something for everyone"

The Doctors - four practitioners with four different specialties - are here to teach you. E.R. physician, Dr. Travis Stork; obstetrician and gynecologist Dr. Lisa Masterson; plastic surgeon and reconstructive surgery expert Dr. Andrew Ordon; and pediatrician Dr. James Sears are your go-to sources for information on the latest medical breakthroughs and cutting-edge practices and procedures. This medical dream team uses their knowledge and years of hands-on experience to educate viewers and provide valuable resources.

Dr. Andrew Ordon, M.D., F.A.C.S., is an acclaimed plastic and reconstructive surgeon with private practices in Beverly Hills and Rancho Mirage, California.
