

Dr. Sandy Skotnicki-Grant
Medical Director
Bay Dermatology Centre
Toronto, Canada

"Intraceuticals Oxygen Facials are wonderful and being the first to offer them in Toronto and really reveal them to Canada has been a rewarding experience. As the results are instant and glowing they are a perfect fit before an event and for our celebrity clients before TV appearances and photo-shots.

In addition I find them very beneficial in maintaining my patients fillers and the Atoxylene option is a great alternative for my patients who do not want botox injections. Combining them with microdermabrasion before or using them after ablative lasers and Intense Pulsed Light treatments is also something my patients enjoy."

About the Bay Dermatology Centre and Dr. Skotnicki-Grant:

Opened by Dr. Skotnicki-Grant in 2006, Bay Dermatology Centre is one of the foremost centres of its kind in Canada. Its vision to provide full dermatology services focused on patients rather than procedures is evident through its emphasis on patient education.

Bay Dermatology Centre was featured in Glow magazine's annual Spa Guide. Glow named Bay Dermatology Centre's Intraceuticals treatment as the Best Anti-Aging Treatment, noting "... it's like a spring clean for the May Queen – and it leaves you looking as polished as royalty."

Bay Dermatology Centre is located at 790 Bay Street, Suite 536, Toronto.
