

What other people are saying about Intraceuticals

Lisa Cobb
Owner, Luxury on Lovers
Texas, USA

Luxury on Lovers specializes in an advanced skin care which we provide in a luxurious, pampering environment. Having been named "Best of the Best" by Allure Magazine and Daily Candy, we pride ourselves in bringing the latest and most effective non-invasive skin care treatments that make a real difference in our client's skin. We regularly attend seminars and advanced education to provide the newest technology and most effective skin care treatments.

We have used topical oxygen for many years, but the Intraceuticals Oxygen system brings the delivery of nutrients and hydration to the skin to a whole new level. Our clients see immediate, visible results. Not only does it lift, plump, and hydrate the skin, it is a great for post laser and peels; accelerating the healing and down time that is typically experienced. It has even improved our results for treating rosacea and teens with acne prone skin which is often dehydrated.

We have combined the Intraceuticals system with some of our other advanced technology to create signature treatments. It has brought a increased level of amazing results from our treatments. Our clients constantly rave about how great their skin looks and feels and comment that they regularly get compliments on their skin! This brings them back with greater frequency. We always suggest they come in for a treatment to look their "glowiest" for an important event!

The Intraceuticals Oxygen system has provided greater and more lasting results from our treatments and our bottom line!
