

4 FACIALS TO TEST

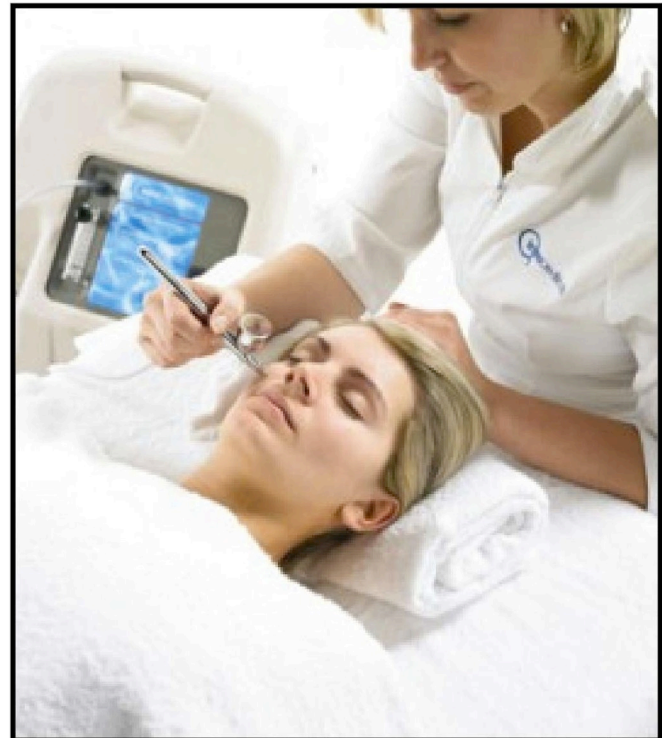

We sent four women of varying ages to try four different facials, find out what they thought and recommend...

Intraceuticals Oxygen Infusion Facial

What is it?

The Australian brand **Intraceuticals** has just launched in the UK and this is its signature treatment. It uses oxygen and serums to deeply hydrate skin.

Tester says: Bianca Barney, 22, graduate: "Beauty salon Renew Medica in the heart of London's Kingsbridge was very chic. I had the 'Clarity' facial to clear up breakout-prone skin. First my face was cleansed, then pressurised oxygen was applied lightly which felt cooling.

The therapist explained the oxygen aids absorption if the serum (containing hyaluronic acid) she would apply afterwards. She applied oxygen to only one half of my face, so that I could compare results with the untreated half. The treated half looked significantly plumper and brighter. Having only had traditional facials before, I was genuinely impressed by how much clearer my skin still looked days later."

How much?

£125 for 90 minutes or £750 for a course of 6.

Where?

Bianca went to Renew Medica London, 0844 576 8303, renewmedica.com
