All-over skin glow

The luxe limbs at DSquared2 were thanks to therapist Michelle Peck's hydration and oxygen treatment. It's an adaptation of her signature facial - which doesn't stop at the neck. "I not only apply face serum and cream to the neck, décolletage and hands, but also to models' knees and elbows. These areas are often neglected, but do get noticed on a catwalk." So when your reveal-all moment is approaching, show your limbs some serum and moisturiser love too.
