

Madonna Makeup Artist Gina Brooke Spills Industry Secrets!

Speaking of prepping our "canvas." What's the best way to get radiant skin, and to make it last?

Skin is the foundation to beautiful makeup. Often times, models and actresses have dehydrated skin, which is why it is important to prep it so the makeup looks flawless. I always prep the skin by using a treatment called **Intra**ceuticals **Infusion**, which infuses a serum into the skin using hyperbaric oxygen.

What beauty products do you always have in your purse?

I prefer products that give immediate gratification! I always carry an **Intra**ceuticals **Opulence** wand, which is an amazing botanical brightening complex that creates radiant looking skin, an **Intra**ceuticals **Clarity Blemish Repair** pen to reduce unwanted blemishes, an eyelash curler and Hourglass' Prodigy Hydrating Lip Gloss in Eden, which I also use on the apple of my cheeks for the illusion of glowing skin.
