

Hollywood secret in Sri Lanka at Capello Salon Intraceuticals

The Hollywood secret, oxygen infusion facial to Sri Lanka is a non invasive treatment, intended as a high performing alternative to facial injections.

This treatment is available at Capello Salons down Havelock Place. Senior Therapist, [Intraceuticals](#) at Capello, trained in Singapore said this a very popular treatment among Hollywood and Bollywood celebrities...

This treatment delivers dramatic results within one or two treatments said Nilky as it addresses the most vexing issues like dehydrated skins, premature ageing sensitivity, sun damage, brown spots most of all fine lines and wrinkles...

What is [Intraceuticals](#)? This is the first and only professional skin care application pressuring therapeutic grade oxygen in addition to targeted serums directly to the skin resulting in increased firmness, reduction of fine lines and improved facial contours.

I attended one of these treatments recently at the Capello Salon. Nilky Fernando the therapist recommended six treatments to see instant results but I did only once but noticed a distinctive plumping of my skin after one treatment. I am now free of many wrinkles... Over the course of the day, my skin was radiant looked slightly lifted and could I not stop touching my plump cheeks! What she gave me was intense hydration. The result was a youthful glow, pores were minimized and my skin now looks clear and radiant...

My colleagues and other friends did notice the difference and they keep on asking the secret and I recieved many compliments too. I felt this treatment is more effective than a facial or a Botex treatment.

The [Intraceuticals](#) infusion will instantly breathe a new life into your skin...

The proof is in the pudding and Hollywood stars and celebrities using this have a flawless and younger looking skin.
